

# NSP Launches "Boomerang" Air & Surface Sanitizer

**Boomerang Air Sanitizer:** Indoor air pollutants are plentiful and many can be harmful to health. From hair spray to cleaning chemicals, from cigarette smoke to dander, these odors and particles present health challenges.

In the battle to clean our air and promote better health for all, NSP proudly offers the Boomerang Air Sanitizer. **This amazing unit KILLS airborne microbes and NEUTRALIZES pollen and particulates, making the air you breathe cleaner and less harmful.** It also helps neutralize indoor odors of all types. And it costs very little to operate!

## **PCO Technology + Nano-Technology\* = The Boomerang Air and Surface Sanitizer**

The Boomerang's effectiveness is due in part to a patent-pending Silver+ Photo Catalytic Oxidation or PCO cell. The cell contains nano-sized metals—silver, nickel and rhodium, copper and titanium—that act as catalyst compounds that react with photons from ultraviolet (UV) light to create millions of redundant oxidizers, including super oxide ions, hydroxyl ions, hydro peroxide ions and ozonide ions. All of these kill or neutralize airborne organisms, through the utilization of the purifying aspects of low level ozone, Ultra Violet Rays, and Redundant Oxidizers. The Boomerang almost completely eliminates aeroallergens after 72 hours. MRSA is transmitted not by air, but by contact with contaminated surfaces - Boomerang kills pathogens on surfaces as well as those in the air. Dust, mold, etc. become inert.

\*Nano-technology is the study of the control of matter on an atomic and molecular scale. One nanometer(NM) is one billionth of a meter. (A nanometer is the amount a man's beard grows in the time it takes him to lift the razor to his face.)

What's in the air is what's in your lungs! Eliminate the problems before they enter the body!The Boomerang is the only unit on the market that uses Nano-technology and creates a much larger surface of purifying.

**The unit sanitizes 2,000 square feet of open living space, and it requires no cleaning or filter replacement.** There's no maintenance for the first three years! The Boomerang is lightweight and energy-efficient and features quiet operation. Made in the U.S., using only the highest quality parts. Comes with cable that runs on AC current. (Use a universal adaptor to make it compatible world wide.) Boomerang can be easily placed on flat surface, or may be attached to wall. It's small, attractive, and efficient. The unit is designed in the shape of a boomerang so the vents can't be blocked by a wall. Use in your home, your car, hotel rooms, can go thru airport security.

**Made in the USA...not just a slogan but a way of life!** Dr. Jeff Bennert, PhD in Naturopathic Sciences, spent seven(7) years in the research and development of the unit.

Dr. Nabarun Ghosh, Associate Professor of Biology & Environmental Sciences, West Texas A & M University and his staff have conducted numerous studies on the use of PCO technology which has been published in the Texas Journal of Microscopy. One of the most interesting and impactful studies is that of the effect of PCO Technology on MRSA. (For a copy, e-mail [patti@backtoherbs.net](mailto:patti@backtoherbs.net), and request a copy of the study be sent to you via e-mail.)

**NSP's Sales Video:** To view NSP's Sales video on the "Boomerang Air and Surface Sanitizer," click on this web link: [www.naturessunshine.com/boomerang](http://www.naturessunshine.com/boomerang)

**NSP's Boomerang Bonus:** In addition, NSP is offering an amazing "Boomerang Bonus" incentive program...For more information link onto [www.naturessunshine.com](http://www.naturessunshine.com) and read specifics on bonus plan based on the number of units a manager sells to members in their downline. This bonus plan is open to managers only.

**Hot off the press: "What's in YOUR Air?"** Sound Concepts is offering an educational booklet, DVD, and brochures that go hand in hand with the NSP Boomerang, as well as going into extensive detail. Purchase these tools @ <http://naturestools.soundconcepts.com/pPB242>.

**We pay attention to the food we eat, the quality of the supplements we take, and the type of ionized pH balanced water we drink. Now is the time to pay attention to the air we breathe and what we can do to make it healthier.**

**Stock # 7030-5 Direct Cost: \$495.00 Retail: \$649.95 QV: \$250.00**
